## PLEADS GUILTY; ESCAPES A TERM

George W. Clingman of Near Manilla, Who Killed George Perry, Given Suspended Sentence

### APPEARS IN COURT TODAY

Prosecuting Witness, Brother of Dead Man, Recommends That This Course be Taken

George W. Clingman of near Manilla entered a plea of guilty to involuntary manslaughter before Judge Sparks this morning in circuit court and received a sentence of from two to twenty-one years, which was suspended during good behavior.

The action of Clingman has been contemplated and the court received the plea upon the recommendation of the prosecuting witness. Clingman shot into a crowd of men returning from a fishing expedition and one of the bullets struck George Perry. Perry lived less than one hour.

Clingman and Perry had been long friends, but there was considerable feeling in the Perry family on account of the untimely death of George. This feeling was envenomed and for a time they aimed that Clingman be tried on charge of murder for which he was indicted. A brother of George was the prosecuting witness when he recommended that the plea of guilty to manslaughter charge the prosecution of the judgment was completed.

Sentence of 2 to 21 years is state prison as Clingman is now in court his age as 31 years. He resides on the Mull farm, about a mile from Manilla, and lived there only a few days before the tragedy. Young Perry in company with five or six other men went through the Mull farm to get to the river. They returned from fishing shortly after midnight in crossing the barn yard Clingman and his wife were awakened. According to the story told by the coroner at the time, Clingman saw the men to be robbers and fired from his bedroom window without taking aim and not intending to kill anyone.

The shooting has always been regarded as more or less of an accident, although it is admitted that Clingman was a little too ready with the gun.

## DE LAKIN BEGINS TERM IN JAIL TODAY

Sentenced to Serve Thirty Days and Pay Fine of \$50 by Judge Sparks for "Bootlegging"

### AND COSTS TO BE PAID

Judge Sparks pronounced judgment on Joseph Lakin this morning, sentencing him \$50 and costs and sending him to jail for thirty days. Lakin pleaded guilty to a "bootlegging" charge about two months ago and his judgment was withheld pending the completion of several plumbing contracts held by Lakin, at the request of those for whom he was doing the work.

Lakin was indicted jointly last summer with Charles Perkins for running a "blind tiger." It is understood that the "tiger" was located at a camp they maintained in the east of the city. Perkins pleaded guilty and received a suspended sentence on account of ill health. It is understood that Lakin will pay the fine and costs, leaving him thirty days to serve in jail.

## WEEK OF PRAYER BEGINS

First Service Tonight at 7:30 at United Presbyterian Church

The annual week of prayer services, to be observed by Protestant churches with union meetings, will begin tonight with the service at the United Presbyterian church, which will be addressed by the Rev. C. M. Yocum, of the Main Street Christian church. The meeting tomorrow night will be held at St. Paul's M. E. church and the Rev. S. G. Huntington of the First Baptist church will deliver the sermon. The services will begin each night at 7:30 o'clock and preceding them will be a half hour prayer service.

## NEW YEAR USHERED IN ABOUT SAME WAY

Fact That it Came in Sunday Night Made no Difference in the Celebrations

### MANY WATCH PARTIES HELD

The new year was ushered in here in about the usual manner as in other years. The fact that New Year's eve fell on Sunday made no difference and the celebration was confined to watch parties, the ringing of the church bells and the fire bell joke was worked over time. The first alarm was sounded promptly at twelve o'clock and came from box No. 42, corner of Fifth and Harrison streets. In a few minutes another alarm came in from box No. 26, corner of Fourth and Perkins street. The fire department answered the first call but did not go to the second. The clock in the court house tower struck seventeen instead of twelve at midnight.

There were numerous watch parties, but no public demonstration. The watch party scheduled for the First Presbyterian church was called off on account of sickness of those who were to participate.

## ARRESTS DECREASE DURING YEAR 1916

Police Records Show 103 as Compared to 155 in 1915, Due to Many "Blind Tiger" Cases

### 44 ARE FOR INTOXICATION

Rushville's record for law and order during the past year was exceedingly good, showing an improvement over the previous year as far as the number of arrests in police court are concerned. During 1916 a total of 103 arrests were made by the police as compared with 155 in 1915.

Forty-four of the arrests in the year 1916 were for public intoxication, showing that police court had other business besides handling the "drunks." Other cases were for petit larceny, assault and battery and other minor offenses.

The large number of arrests in the year previous were increased by the cleaning out of a number of "blind tigers." In 1915 there were eight "tiger" cases before Mayor Bebout and in almost every case a conviction was secured, resulting in sending a colony of Rushville men to the penal farm.

### TAKEN TO MADISON

Deputy Sheriff Sullivan took Russell Cavender of Milroy to the insane asylum at Madison this morning. Cavender was declared of unsound mind at an inquest last week.

Charles Sherman heard Sousa's band in Indianapolis yesterday.

## OPEN HOUSE BY NEW OFFICIALS

Auditor, Treasurer and Commissioners Receive Congratulations at Opening of Their Terms

### BOARD ORGANIZES TODAY

Follows Precedent by Electing P. A. Newhouse, Oldest Member in Point of Service President

The result of the November election had its culmination today when the newly elected republican officials took office. Open house was held in the auditor's office, where cigars and apples were passed out to all visitors. The new officials all assembled there where they were greeted by their friends.

The change in the county offices puts the republicans practically in complete control of the county, the one remaining democrat in office being Sheriff Cavitt. The sheriff's term of office does not expire until one year today and on this date he will be succeeded by Ezekiel Jones.

William H. McMillin, the new auditor, Raymond Kelso and Mrs. Fanny Study, his deputies, were on duty this morning. Not much work was accomplished as the new officials were too busy receiving greetings and congratulations from their friends.

John O. Williams, whose second term as county treasurer, started today, and the new commissioners were also in the auditor's office, which was turned into a large reception room. The new commissioner is John E. Harrison of the southern district. P. A. Newhouse of the middle district will not begin his second term until next January. John T. Bowles is the hold-over commissioner. The board is now composed of three republicans.

This was the regular meeting day of the commissioners. They met and organized by electing Mr. Newhouse president of the board. The election of Mr. Newhouse is in keeping with an old precedent. It has always been customary to elect the member oldest in point of service and this fell to Mr. Newhouse. William Moore, the retiring democratic member, served as president of the board the past year.

Albert C. Stevens, prosecuting attorney, began his second term of two years today. Coroner Green does not enter upon his second term until a year from today. Representative William R. Jinnett will take up his duty in the legislature Wednesday, beginning his second term.

## MYRTLE HOOD IS RELEASED

Nine Jurors Ask Their Costs Not be Assessed—Sum Due Decreased

Mrs. Myrtle Hood was released from jail last Saturday after the costs in her case had been paid. The costs were reduced \$45.90 by nine of the jurors asking that Mayor Bebout not tax their fees. She was fined \$10 and costs on a statutory charge. The fine and costs amounted to \$81.20. She would have served 80 days had the entire amount been charged against her. Nine of the twelve jurors signed the statements asking the court to remit their costs, thus knocking off the sum of \$45.90. The fine and costs then amounted to \$45.10, which was paid.

### JAIL WAS EMPTY TODAY

The county jail was empty for a day for the first time in over a year. Milton Wainseott was released this morning clearing the jail of prisoners. There was no one there for several hours and then Joe Lakin began serving his term.

## FIRE LOSSES IN YEAR 1916 SMALL

Amounts to Only \$6,353.50, According to Annual Report Made by Fire Chief Easley

### LOSS ALONE TOTALS \$5,000

Twenty-Four Fires During the Year and Fourteen False Alarms—Great Reduction Shown

Rushville was very fortunate in the year 1916 in escaping without a heavy fire loss. The loss for the past year was below normal and was probably lower than in any previous year. The total loss from fire during the year was \$6,353.50, according to a report prepared by Fire Chief Easley.

This loss is the more remarkable when it is taken into consideration that one fire alone amounted to \$5,000. This was the fire of the National Gate company occurring last March. This was the only serious blaze of the entire year and accounted for most all of the total loss.

There were twenty-four fires during the year. This number includes all of the calls where there was a sign of a blaze, but does not include the fourteen false alarms answered by the department. The losses amounted from \$5 to \$5,000. There were two \$100 blazes but for the most part the losses were lower than this.

The minimum fire loss speaks well for the fire department, which was reorganized during the past year. Under the new system there are four men at the fire station, a fire chief and an engine man. The company has three head of horses and one fire engine that is in good condition in addition to the other equipment.

A total of 7,850 feet of hose was laid in reaching all of the blazes during the year. A hundred and fifty feet was the smallest number laid and the largest was 1,200. This latter amount was used in fighting the gate company fire. Chemicals were used successfully in three cases.

## RECORDER'S OFFICE JAIL FOR G. W. YOUNG

Sheriff Cavitt Lets Attorney in With His Key, Relocks Door and Forgets All About It

### YOUNG PRISONER FOR HOUR

George W. Young thought for a time this morning that Sheriff Cavitt was getting even with him for something. The recorder's office was closed for New Year's day and Mr. Young desired to get some papers out of the office. Sheriff Cavitt played the good fellow and let Mr. Young in the office, locking the door after him.

Mr. Young completed his work and then tried to get out. The door was locked and he decided to wait a few minutes. The minutes passed until an hour had been reached. Then Mr. Young decided that Cavitt must have mistaken the recorder's office for the jail and locked him up for keeps. As a last resort in an effort to get out, the telephone was brought into play and the sheriff was found.

A boy was born Saturday evening to the wife of Omer Collien in Cottage avenue.

Hubert Huddleson of Chicago is spending several days here with friends.

Lon Sexton is recovering from an attack of la grippe.

## CRASHES INTO LIGHT POST

Auto Driven by Gifford Cook is Seriously Damaged

The automobile owned by Robert Cook of near Falmouth was seriously damaged this morning when it crashed into one of the pedestal street light posts in front of the Grand Hotel. The machine, driven by Gifford Cook, a son of Mr. Cook, was making the turn into First street from the north and before it could be stopped crashed into the heavy iron post. The radiator was damaged and two of the glass globes on the post were broken.

## ISREAL HUMES DIES NEAR NEW SALEM

Noble Township Farmer, Who Expires of Complication of Diseases, Widely Known Man

### FUNERAL WILL BE TOMORROW

Israel Humes, 82 years old, died this morning at his home near New Salem, following a long illness from a complication of diseases and senility. Mr. Humes was a widely known man. He had resided all his life in Noble township with the exception of one year spent in Illinois. He had been in a critical condition for some time and his death was expected.

He is survived by his widow and two children, Mrs. M. O. Sefton of Noble township and Ira Humes of California. He is also survived by two brothers, Thomas J. Humes of near here and John C. Humes of Noble township.

The funeral services will be conducted Wednesday morning at ten o'clock in the late residence by the Rev. G. Abbott and burial will take place in East Hill cemetery.

## SENT TO "FARM" FOR THEFT OF POOL BALL

Milton Wainseott, However, Said to Have Promised to Leave if Sentence Was Suspended.

### IN MANY ESCAPADES LATELY

The theft of a pool ball valued at \$1.65 appears to have been "the straw that broke the camel's back" in the case of Milton Wainseott. Wainseott this morning entered a plea of guilty to the charge and was fined \$5 and costs and sentenced to the state penal farm for a period of one year. He was also fined \$1 and costs on a charge of public intoxication.

Wainseott has been in numerous escapades during the past year and the officials believed it would be a good thing to get rid of him. With the understanding that he would leave the city, Judge Sparks suspended both sentences pending good behavior. It is understood that Wainseott will leave Rushville within fifteen days. He was indicted by the grand jury last week on both of these charges. It was alleged that the pool ball was taken from the McAllister pool room.

## FUTURE LIES WITH GERMANY

Peace Movement Depends Wholly on Central Powers, Washington Officialdom Believes.

### MUST BE MORE EXPLICIT

"Broad Hint" to Neutral Countries by United States That Now is Opportune Time.

By ROBERT J. BENDER.  
(U. S. Staff Correspondent.)

Washington, Jan. 1.—The life or death of the present peace movement rests wholly in the hands of Germany.

This was known positively to be the belief today of Washington officialdom. Furthermore, while administration officials believe the Entente powers have left a loop-hole for Germany to prove the sincerity of her original proposals, they believe peace negotiations are further off today than they appeared to be at the start of the present movement.

This government feels that Germany must more frankly declare herself in regard to her plans and specifications if she is to keep alive any peace negotiations sentiment.

That Germany may take this gigantic step in her next move, insisting however, that her terms be held in confidence—is deemed possible by many officials.

A hint to all neutral countries that "the time is opportune to act" toward bringing about peace was conveyed to neutral capitals by U. S. diplomatic representatives abroad, it was announced today.

Coincidentally with this authoritative information came the unexplained information that this "broad hint" has been dropped.

The state department let it be known today that these instructions carried the impression that if any other neutral desired to make a move for peace, the best time appeared to be at hand.

## ATTENTION ON THE REPLY TO AMERICA

Since England Approves Answer to German Peace Note, it is Wondered What She Will Say to U. S.

### EXPECTED TO BE SUPPLEMENT

By ED. L. KEENE.  
(U. S. Staff Correspondent.)

London, Jan. 1.—With every word of the allied reply to Germany being approved by press and public, attention today centered on just how much further the Entente would go in specifying its stand in the reply to President Wilson's peace note.

The general belief today was that the allies having outlined in a general way in the German note the position they must adopt with regard to German peace proposals, would make the reply to America a sort of supplement which would go more exhaustively into the aims and purposes animating the allies in their determination to continue the war. In some quarters it was held the reply note to Germany was a full and sufficient answer to America.

There were only a few notes of criticism today in the general chorus of approval of the allies answer to Germany.

### AUTO TURNS TURTLE TWICE

A roadster driven by Watson Fossett of Cambridge City turned over last night about 8:30 o'clock three miles west of the city, when it skidded in a rut in the road and turned turtle twice. The face of the driver was badly skinned up, but otherwise he suffered no injuries. He was accompanied by Mr. Davis, also of Cambridge City.

PLANS TO KILL  
OFF THE DOGS

England Will Cut Down Food Consumption by a Great Slaughter of Canines.

PINK RIBBONED PUPS TO GO

Statistical Persons Have Figured it Out That Each Dog Costs 12 Cents a Day.

(By United Press.)

London, Dec. 10. (By Mail)—The dog is going to have his day with the ax-man just as soon as the anti-dog element wins its point.

This doesn't apply to the fox-terrier, which has a sense of humor or other small, sporting dogs or to the larger breeds which have their uses on the farm. But the pink-ribboned, brilliantined, carefully-combed and valeted animal that goes out at the end of a nine-dollar leash and dines with a butler's attention is about to get his. He is a drain on the national food supply and about as useful as the North Pole.

London dog-owners picked a bad time to hold their pet-dog show. Thousands of fat, fluffy Mumsey's Duckywuckums were carried in limousines to the exhibition benches while details were coming to light of the privation of slum children.

Statistical persons with pad and fountain-pen figured that each dog eats a minimum of 12 cents worth of food a day—two pups consuming enough to keep a war-orphan in good health. That comparison with the children and the spectre of a pinching food scarcity put the useless dog at a disadvantage for his life.

FERTILITY OF  
SOIL NECESSARY

Assistant Secretary of Agriculture Says Farmers Should Pay More Attention.

IS FUNDAMENTAL BASIS

Use of Legume Crops Has Long Been Advocated and Found Very Successful.

BY CARL VROOMAN.

Assistant Secretary of Agriculture. (Written for United Press.)

Washington, Jan. 1.—A popular magazine some months ago sent a letter to all our Senators and Congressmen asking them what, in their opinion, would help most to keep the boys on the farm. A certain Senator, noted for terseness of speech and horse sense, wrote, at the bottom of the page an answer of five words, which I commend to all American citizens as being adapted to solve more agricultural problems than this one. The Senator's reply was: "Make farming profitable, by——!"

The prosperity of the farmer is to the business world what soil fertility is to the agricultural world, the fundamental basis of all permanent success. Many farmers in the past have made the mistake of thinking that they could get rich by skinning the soil, and many business men likewise have made the mistake of thinking that they could get rich by skinning the farmer. The only way that the farmer can make a permanent success of farming is to keep up the fertility of the soil, and the only way the business world can be permanently successful is to insure the continued prosperity of the farmer.

The use of legume crops has been advocated ever since the days of the Roman Empire and probably long before that, because they not only were paying crops, but had the added advantage of gathering from the air and depositing in the soil more nitrogen than they expected. The legume should be the model for every intelligent business man in his dealings with the farmer.

When a banker loans a farmer money, he should loan it to him at a rate of interest and for the kind of investment that will enable the farmer not only to pay back his loan, but to gain for himself a margin of profit. The railway manager who makes rates for the farmer for shipping fertilizer and other merchandise to the farmer, and for shipping the farmer's produce to market, should make a rate that will leave the farmer a margin of profit. The middlemen who handle the farmer's produce should endeavor to get him such prices and should charge him only such commissions as will leave the farmer a margin of profit. In the long run, it is only thus that the banks, the railroads and the commission men can insure their own profits.

If the leaders of the business world will lay this lesson to heart; if on New Year's day throughout this country they will take the legume as their model, and the words "Leave the farmer a margin of profit" as their motto, it will do more to increase production and reduce the high cost of living, it will do more to keep the boy and the girl on the farm, it will do more to create an invincible national efficiency and to push forward the work of national preparedness, than any other single step that can be taken.

## NEW WORKHOUSE COSTS \$700,000

Luxurious Quarters for Milwaukee Prisoners Will be Ready Monday—Twelve Buildings

TO OPERATE CHAIR FACTORY

(By United Press.)  
Granville, Wis., Jan. 1.—Milwaukee county criminals Monday will occupy new quarters in the luxurious establishment built here at a cost of \$700,000, and said by officials to be one of the largest, finest, most comfortable county workhouse in the country.

The buildings of which there are twelve, have been under course of construction for the last two years. They have a capacity for 650 prisoners. Each inmate has a separate cell, while those who sleep in the dormitories will have plenty of room and a number of cubic feet of air to breathe. The inmates will have luxuries denied many persons even in moderate circumstances. Each cell will contain a toilet and wash basin while shower baths will be installed along the cell corridors.

So as not to fatigue prisoners, the chair factory has been located in such a manner that they will not have to walk a great distance. The factory will turn out thousands of chairs of all kinds each year. It was built at a cost of \$100,000.

## To The Republican Precinct Committee of the City of Rushville, Indiana

In accordance with the provisions of the primary election law of Indiana and pursuant to the interpretation thereof by the commission appointed by the Governor, the committeemen for the ten voting precincts situated wholly or partly in Rushville, Rush County, Indiana, are hereby requested to meet at the court house assembly room in said city at 7:30 o'clock p. m., on Tuesday the second day of January, 1917, for the purpose of electing a chairman, secretary, treasurer and such other officers and committees of the Republican City Central Committee of said city as they may deem advisable.

S. G. GREGG.

Chairman Republican Central Committee of Rushville, Indiana.

## Peering Ahead a Year

What will the year 1917 mean to Rushville, to this community and the people who call it home?

What will be your personal attitude toward making it a better Rushville, a more prosperous community and a more open-hearted people?

The efforts of the individual citizen may accomplish something, but the co-operation of a collective people will produce notable results.

Collective co-operation is only possible where confidence and good will exist, and where there is a determination to utilize this combination to the ultimate good of all.

The man who holds a grudge against his neighbor can not successfully pull in harness with that neighbor so long as that grudge exists. Lose the grudge.

The man who disparages and undermines the reputation of another can not expect the community in general to think well of the assassinator of character. Speak gently and use the soft pedal.

The man who says "go ahead" can not expect to keep pace with the hustler who says "come on." Step lively and get there.

And one man who says "I Will" is worth a hundred of those who say "I Can't."

This is the time of year when the hopper of time is filled with new resolutions. But it is more profitable to act than to resolve.

Let us make this a year of action, of needs, and of results.

Let us make this more than a collection of individuals. Let us make it a community of people with one aim, one ambition, and one great purpose in life, and let us make that purpose the good of man and

womankind in general and of this community in particular.

If we work collectively, earnestly and energetically we will achieve success, but if we labor individually we will accomplish but little.

The road of life is long, and stormy, and many barriers bar our way. But many hands make light work of the heaviest burdens, and collectively might may roll the heaviest barriers away.

We may each pursue our own chosen vocations, and yet all labor in the common cause of a better and more prosperous town and countryside.

Two horses pulling in one direction will get the load there. But when one pulls and the other balks the load stands still.

Will 1917 find us a community of loyal pullers, or a divided aggregation of pullers and balkers who accomplish nothing but to stand still?

Nineteen seventeen will tell the story, and you will put the words in the mouth of the teller.

What are those words going to be?

Will they be loyalty, cohesion, aggressiveness, success? Or will they be disloyalty, suspicion, disintegration, disaster

A year of promise is ahead, but promise never makes good unaided and alone.

We must each grasp the opportunities with which nature has provided us, and turn those opportunities to individual and collective weal.

To do otherwise will be to stand still while others march on to victory and to success.

Shall we stand, or shall we march?

You tell.

## Diplomacy Not a Success

Carranza refuses to sign the protocol which the Atlantic City conference prepared.

The Entente Powers of Europe have politely but very firmly indicated that they do not desire the good offices of this government in securing peace.

The people of Santo Domingo have sent to the governments of South and Central America a protest against the action of this administration in seizing control of their island.

It cannot, therefore, be held that American diplomacy as practiced in this year of Our Lord is a glittering success.

But it has been demonstrated that the State Department can make utterances which will destroy values in the American stock market, which will wreck the financial prospects of thousands of small investors, and which, properly "leaked," will enable a few persons to reap colossal gains.

Would not it be wise, therefore, for the State Department to confine its operations to the stock market, where it has shown itself to be really potential, rather than to continue to mix and muddle in matters where it cannot accomplish anything, even for the "humanity" which it seems to be our manifest destiny to serve, but which, ungratefully, wishes to be let alone?

Let the shoemaker stick to the last!

It is reported that an Indianapolis woman is trying to get a bill introduced before the next legislature which will provide that women not be allowed to wear corsets. You may supply your own comment.

# OBJECTING TO ONE PARAGRAPH

Wayne County Officials do Not Like a Provision of Proposed State Highway Bill

## TECHNICAL EXAM. FEARED

Do Not Want Them Such That Practical Road Men Could Not Compete for Positions

Richmond, Ind., Jan. 1.—What county officials and others interested in the state highway commission legislation believe is a "sleeper" has been discovered in the draft of the bill that is to be presented by Luke Duffy to the state legislature. It was found and discussed in its dangerous possibilities by W. O. Jones, county superintendent of highways and L. S. Bowman, county auditor, and yesterday, the attention of other persons over the state was called to it by letters sent out from Richmond.

The paragraph of the proposed bill, to which objection is taken reads:

"That the state engineer have authority to require county and township road official to give him such information of their local road conditions as he may see fit to request."

This paragraph was not discussed in the meeting last week in Indianapolis of men who are working in the highway commission movement. Mr. Jones points out that only once was any illusion made to this paragraph and that the discussion of the bill followed each paragraph of the measure until this one was reached when the entire bill was placed on vote for approval.

The one reference to the paragraph to which exception is taken was made when Mr. Duffy said that no examinations would be required of present county highway superintendents this year but that an examination would be required next year. It was at once directly charged that these examinations would be used as a means for Purdue university, through a technical examination, replacing practical road men with Purdue graduates in road engineering.

Mr. Jones and others in this county believe that this particular paragraph of the law would be invoked to establish the system of examinations on technical lines that would make possible the placing of "road engineers" in the county superintendencies. He says that he does not object to examinations or would not remove from this bill, this paragraph, but that it should definitely specify to what extent information can be demanded, how and what examinations must be taken and not make it so technical that practical road men could not compete with "engineers." He believes that through these examinations and demands for information "on local conditions" a state engineer could foist upon the taxpayers a heavy expense that would not benefit the roads. In a conference in Indianapolis next week, the Wayne county men will demand a change in that paragraph to cover the points they make.

## WELL IT IS, ISN'T IT?

There were a lot of 1917's last night. The man who was on duty at the telephone office last night says that just as soon as the clock struck twelve, the buzz of phones ringing began and the office resembled a bee hive in first class working order for about five minutes. The noise represented the activities of scores of persons who sat up until midnight just to call up their friends and say, "Hello, is this 1917?"

# PURDUE TO HOLD A ROAD SCHOOL

Sessions Under Auspices of Engineering Department Will Start January 16.

## MANY OFFICIALS TO ATTEND

Will Tell of Their Personal Experiences Growing Out of This Work

The annual Road School of Purdue University will be held this year from January 16 to January 18.

The sessions begin at noon on Tuesday and close at noon on Thursday. Over a hundred Indiana road officials were registered at the Road School last year and more are expected this year.

All of the time of the school will be devoted to a consideration of Indiana road problems. Many of the road officials of Indiana will present their personal experiences. Much time will be given to the discussion of these talks.

The United States Office of Public Roads and Rural Engineering will have a representative present to give the latest conclusions of that department.

The meeting of the Indiana Engineering Society at Purdue on January 18 to 20 makes it possible for road officials to take in both meetings in the same week. As in previous years the Road School will be held under the auspices of the School of Civil Engineering.

Programs and further detailed information may be obtained from the Highway Engineering Department of Purdue University.

# LONDON ARTIST STAGES COME BACK

After Thirty-four Years Retirement Richard Belt Models Bust of Kitchener.

## OFFERED \$50,000 FOR WORK

(By United Press.)

London, Dec. 10.—(By Mail)—Richard Belt, artist, came back after 34 years of retirement due to illness and modelled a bust of Lord Kitchener, so lifelike that he was offered \$50,000 for it. Art is priceless to Belt, however and his masterpiece has been claimed by the Government. A cannon from the British artillery has been set aside to make the casting.

Belt's last previous work was a bust of Sir Richard Burbridge which the academy refused to accept. Shortly after the refusal he lost the power of one arm and gave up the work.

The artist was one of Kitchener's worshippers and studied the great soldier's mood. When England was stunned by Kitchener's loss Belt and his wife improvised a secret studio in their home and the sculptor began work anew to express in clay what was in his finger-tips.

"I had never spoken to Lord Kitchener," said Belt today, "but I had observed him many times, noting features keenly and to the minutest detail of every mood. I could not rest until I had put the knowledge to expression. The bust is the result."

Critical art committees judged the model to be a faithful and lifelike representation of Kitchener contemplative, combining his severe facial lines with some hint of his genial nature.

## SIXTH IN LIST OF WINNING PACERS

Diameter, Trained by Frank Lindsey, Takes Purses Amounting \$6,852 in One Season

PURCHASED AT CHICAGO SALE

Diameter, the sensational bay gelding, trained by Frank Lindsey of Falmouth, was one Rush county horse that "cleaned up" last year on the grand circuit. The total winnings of Diameter were \$6,852 in purses and there is no telling how

much the men interested won on the horse. Diameter was recently sold at the Chicago sale for \$1,525.

Diameter was a long time coming into anything like sensational form. For several years Diameter was raced over the half-mile tracks of the Indiana fair circuits with only ordinary success. The gelding was a big awkward looking horse and nothing great was ever expected of him. Last season Lindsey took him down the grand circuit, the result being that Diameter stands sixth in the list of winning pacers for the year 1916.

Diameter is eight years old, making the performances of the past year the more remarkable. The gelding took a mark of 2:01 on the Columbus, Ohio, track.

## RETURNS TO OLD COMPANY

Donald McIntosh Becomes Head of Agents for State Mutual

Donald R. McIntosh, formerly of Connersville and well known here, has been appointed superintendent of agents for the State Mutual Life Assurance company of Worcester, Mass., with headquarters in Indianapolis. Mr. McIntosh formerly represented this company as district agent at Connersville, but since the workmen's compensation law became effective, he had been field representative of the Aetna Accident company. His success in this last position brought a promotion, but

he resigned to return to the old company and devote his entire time to life insurance. In his new capacity he will act under the direct supervision of Edson F. Folsom, the state manager, who is well known here where he once lived. He is best known by his advertising slogan, "Talk it over with Folsom."

# A Triumphant Year for Newspaper Advertising

An increase of approximately twenty-five million dollars in newspaper advertising from the general field has been recorded in the year 1916 just closed. ¶ No other medium, employed to spread the printed word, shows a similar increase either in dollars and cents or in comparison by percentages. None other was paid so well, because none other worked so well.

Never before did newspaper advertising render such a variety of services to so many people, or open so many hitherto unexplored avenues of usefulness.

It is the rule of business that the thing that pays grows; and national advertising increased in the newspapers because it showed large profits to the men who properly employed it. It had paid the foresighted ones who used it in large volume in 1915—so they used more of it, and, as the blazed trail is easy to follow—more people used it.

There was, of course, a great underlying reason for this development of national advertising in the newspapers.

It has been tersely given by a great manufacturer who is at the present time advertising in more than half of all the daily newspapers published. He says:

"Newspaper advertising hits the spot we want to reach.

"Newspaper advertising carries our story to the consumer with the daily news.

"Newspaper advertising does effective work with the local dealer."

Or as a successful advertising agent says it, "Nothing succeeds like newspaper advertising."

## Leadership

Many important interests had things to say to the public during the past year. They found the medium of newspaper advertising the effective place to say them. Among the greater developments along these lines of public service were:—

The further enlargement of the idea of advertising for the good-will of the people on the part of the railroads, telephone companies and other public service corporations;

The growth in space of institutional advertising on the part of manufacturers who are producing a variety of staple products;

A nation-wide campaign of advertising by the railroads which crystallized public sentiment at the time a great strike was threatened;

A nation-wide advertising campaign on the part of the Bethlehem Steel Company.

Employment of newspaper advertising for the first time by the Democratic and Republican National Committees.

This latter development was perhaps the most wholesome achievement of the recent political campaign.

## First In Public Service In War and In Peace

Perhaps the most notable triumphs of Newspaper advertising were in the field of public service.

Governments marshalled newspaper advertising batteries to raise troops, to pay bills, to encourage thrift, to stimulate industry, to mobilize every national force. It has been said that during the past year the lives of the people of the British Empire have been directed by an advertising manager.

Progressive Canada, nearer home, has done wonderful things along these lines. By advertising to increase productiveness, she has literally made two spears of wheat grow where one grew before.

While the Government of the United States has not yet awakened to the force of the great power she has at her door, leaders of her great political parties have had a last hour conversion.

During the recent political campaign, for the first time, the battle was fought in the open, largely through the medium of newspaper advertising.

It is a significant fact that the Republican Party, which was the greatest user of newspaper space, carried every state but one where it sent its message to the people.

Democratic leaders on the other hand did much to combat this influence with some strong advertising for their candidate.

Corporations have found in paid advertising a sure avenue to good will for a just cause.

Capital and Labor have courted public opinion through the newspapers.

The old days of lobbying and secret wire-pulling have given way to the greater force—newspaper advertising.

Some of the things that were done were badly done, but progress was made and this fact clearly established:—

## Service

Canada's Government has found newspaper advertising an efficient servant. It has employed it since 1906, and, since the war, has greatly multiplied its field of usefulness. Here are some things the Canadian Government has done:

‡ ‡ ‡

Marketed her apple crop at a profit, saving her growers the loss of \$2,000,000 by an advertising expenditure of \$14,000;

‡ ‡ ‡

Increased the production of farm products and the activity of manufacturers by an expenditure of \$15,000, adding \$300,000,000 to her gross production;

‡ ‡ ‡

Induced the cultivation of town plots by an expenditure of \$1,000;

‡ ‡ ‡

Floated immense war loans; and taught thrift and patriotism.

‡ ‡ ‡

And Canada has only begun to fight—and to advertise.

"The newspaper of the immediate future will be the great link for every man and set of men who wish to connect with the public."

These facts were gathered by the  
Bureau of Advertising, American Newspaper Publishers Association  
The Daily Republican Being a Member.

### PROPOSED CORSET LAW.

"Be it enacted by the legislature of Indiana that 'Corsets or any garment intended or adapted to the purpose of constricting the waists of girls or women, shall not be conveyed in the mails, or by express companies, directly or indirectly or by any other means transported into the state of Indiana; and every person who shall knowingly convey or transport or who shall knowingly receive any corset or garment designed to construct the waists of women and girls into the state of Indiana, shall upon conviction, be fined not more than \$5,000 or imprisoned not more than five years, or otherwise punished at the discretion of the court.'

Indianapolis, Ind., Jan. 1.—Declaring the wearing of corsets to be the greatest of all evils, Mrs. Anna Hoeltke of this city has prepared the above bill to be introduced at the coming meeting of the legislature. Representative-elect William S. Woods will present the bill to the legislature, Mrs. Hoeltke stated to the United Press today.

"The corset has killed more women and children than whiskey, tobacco, war and famine," Mrs. Hoeltke stated today. "This worse than barbarous custom of deforming the waists of girls and women is far more injurious than the savage custom of flattening the head or the Chinese custom of binding feet."

"Reports indicate that thousands of deformed babies are born every year as the result of mothers binding their waists with corsets. The government has passed laws prohibiting the sale of habit-forming drugs. What is the government going to do to prevent the coming generation from living in a whalebone prison before birth?"

The Missionary society of the First Baptist church will meet on Wednesday of this week in the parlors of the new church at 2:30 o'clock.

An interesting program will be carried out at the meeting of the C. W. B. M. on Wednesday afternoon in the basement of the Christian church. The meeting will be called at 2:15 o'clock.

A New Year's dinner was given yesterday by Mr. and Mrs. C. A. Mauzy at their home in North Harrison street when they entertained Mr. and Mrs. George Dehority and son of Elwood, Mr. and Mrs. Louis Mauzy and Mr. and Mrs. Hugh Mauzy and daughters, Judith and Janet.

## Greetings to You

TO OUR PATRONS AND FRIENDS WE BRING GREETINGS

May a benign Providence smile kindly upon you during the years to come, and may your fondest hopes be realized.

For the generous measure of good will and patronage you have accorded us, we wish to tender our heartfelt thanks and appreciation. Your good will is dear to us and you will ever find us striving more and more to merit the same.

That our future relations may be equally satisfactory to both, is the wish of

Your Sincere Friends,

Dainty refreshments were served to the guests including the Misses Esther Anderson, Margaret Ball, Mary Louise Bliss, Helen Frazee, Kathryn Giffin, Dorothy Mulno, Lois Reeve, Kathryn Wyatt, and William Sexton, Howard Stiers, Dwight VanOsdol, Forrest Jones, Harry Schmalzel, Alfred Norris, Harold Wolcott, Hubert Alexander and Lawrence Payne.

### TODAY'S FISH RECIPE.

If folks only understood more about it, the old prejudice against cold storage fish and other foods would soon disappear. At certain seasons more fish are caught than are consumed. The minute the fish are taken from the water, they are placed on ice. As soon as possible, the fish are put into a freezing cham-

ber and frozen solid. They cannot deteriorate after that.

Later the fish are taken out and put on ice. This thaws them out. Not one person in a hundred knows the difference between fish out of cold storage and those fresh out of water.

When fish, frozen solid are purchased, they should never be placed in water to thaw them out. They should be placed on ice and allowed to thaw out naturally. If you are in a hurry and must put it in water, the same water should be used to cook the fish. All varieties of fish are placed in cold storage and by judicious use of this seafood housewives should be able to keep expenses down.

## Renewed Testimony

No one in Rushville who suffers backache, headaches, or distressing urinary ills can afford to ignore this Rushville man's twice-told story. It is confirmed testimony that no Rushville resident can doubt.

Harrison Levi, 931 N. Sexton St., Rushville, says; "I used to have to get up six or seven times each night on account of the too frequent passages of the kidney secretions. Often the passages were scanty and accompanied by pain. I also had severe backaches. Nothing ever did me any good until I got Doan's Kidney Pills from Johnson's Drug Store. It didn't take them long to fix me up. The pain left and my kidneys became regular in action." (Statement given July 27, 1912.)

## A PERMANENT CURE

On Aug. 25, 1915 Mr. Levi said: "I am glad to confirm my former endorsement of Doan's Kidney Pills for they have given me a permanent cure."

## KILLS WIFE AND ENDS OWN LIFE

Valentine Kaufman, Prominent Wayne Co. Farmer, Found Dead in His Home Sunday

## SPOUSE'S BODY IN THE BARN

Leaves Note Directing Where to Find Wife's Corpse—Domestic Trouble is Hinted

Richmond, Ind., Jan. 1.—J. Valentine Kaufman, 50 years old, one of the wealthiest farmers of Wayne County, shot and killed his wife, 54 years old, and then ended his own life with a shot from the same revolver on their farm half a mile south of Pennville early Saturday evening. The bodies were found Sunday afternoon by Mrs. William Hudson, a neighbor, who went to the Kaufman home on an errand.

Mrs. Hudson found Kaufman's body on the kitchen floor with a bullet wound in the head. A revolver lay nearby. On a table was a note which said, "Go look in the barn." Mrs. Hudson went to the barn and in a cow shed found the body of Mrs. Kaufman, covered with a tarpaulin. There was a gaping wound on the side of the head. There was no indication of a struggle.

Coroner R. D. Morrow believes that Kaufman followed his wife into the barn that evening and killed her while she was doing the chores. The husband, according to the finding of the coroner, then returned to the house, penciled the note and turned the revolver on himself.

No definite motive for the crime was obtainable. The coroner said neighbors told him there had been domestic trouble, but these rumors were too vague to lead to any plausible clue that might explain the cause of the tragedy.

The only child of the couple, Carl

Kaufman, is in the East on a honeymoon trip. He was married to Miss Marjorie Mayhew of this city a few days before Christmas. The son operated the farm of 180 acres for the parents. The land was in the name of Mrs. Kaufman.

The Kaufmans had lived in the western part of Wayne county for many years and were rated as prosperous.

Prosecutor Strayer is investigating a report that Kaufman killed his wife because of difficulty arising over the son's management of the farm. Neighbors say that Kaufman was a poor man when he married his wife, who owned the farm. For a number of years the mother has sided with the son on questions pertaining to the farm management. This, the neighbors say, caused friction between Mr. and Mrs. Kaufman.

The son's marriage last week, it is believed, may have caused Kaufman to fear further trouble and complications, finally driving him to the decision to kill his wife and himself. Neighbors say Kaufman was a hard-working man. He was highly esteemed in the western part of the county. A number of letters addressed to relatives were found, but their contents were not disclosed.

## SHORT SESSION IS ON LAST LAP

Several Important Measures to be Considered by Congress in Closing Months.

### REVIEW OF ACCOMPLISHMENT

Railway Legislation Looms up as Largest Piece of Unfinished Business.

(By United Press.)

Washington, Jan. 1.—The short session of the Sixty Fourth Congress is on the last lap of a whirlwind race. Following is a review of what has been accomplished and something of what remains to be done.

These, measured by public interest, are the most important legislative tasks accomplished by the Sixty Fourth Congress:

The Army and Navy bills carrying appropriations of gigantic sums, a long step towards preparedness.

Establishment of Federal Reserve banks to eliminate danger of financial panics.

Purchase of Danish West Indies at a cost of \$25,000,000, another stride towards preparedness.

Federal Farm Loan Act, of great interest to farmers and intended to aid them in securing necessary capital at a fair rate of interest.

Federal Good Roads Law, provides \$75,000,000 to be used in improving National highways.

Federal Trade Commission, "a go-between" in matters between the Public and corporations.

Workmen's Compensation; Ship Purchase Act, a movement toward a real merchant marine, Child labor law.

Railway legislation looms up as the biggest piece of unfinished business. Strenuous efforts are being made to rush the railway program through during the present short session of Congress.

The corrupt practices bill, providing for publicity of campaign funds, is another important bill up for a speedy consideration.

The Judgeship bill, which would relieve from service Judges reaching the age of 70 after ten years' service, and who by reason of physical disability are unable properly to discharge their duties, also is set for early hearing.

The fate of the immigration bill, with the literacy test attached, which was recently passed by the Senate, is hard to predict. President Wilson vetoed a similar bill. It is rumored an effort will be made to pass the bill over any possible vote.

Woman suffrage and national prohibition have been reported by the House committee but it is impossible to say when either bill will reach a vote.

Other important measures due for early consideration are: the water-power bill, having to do with the leasing of power-sites on inland waterways; the flood-prevention bill carrying appropriations of millions for flood prevention along the Mississippi and Sacramento rivers, and the Webb expert bill, which would permit combination of American exporters for participation in foreign trade in an effort to meet competition at the end of European hostilities.

The line-up of Republicans and Democrats in the Senate will be slightly altered in the 66th Congress, Democrats losing one and reducing their working majority to 13.

The line-up of the House is still in doubt. The result of the fight made in North Carolina by Britt, Republican and Weaver, Democrat, may decide the question of the majority in the lower branch of Congress.

### +++++ TODAY'S HOOSIER ODDITY +++++

Terre Haute, Ind., Jan. 1.—John Davenport, colored, may have to pay \$500 and serve sixty days in jail in payment for one turkey. He was given this sentence for stealing a turkey, but has appealed the case.

Miss Prudence Pope is ill at her home in this city.

Charles Combs has been ill at his home in Glenwood for several days.

# Thank You AGAIN

All during the year just closing we have thanked the people of this community individually for their generous patronage and support which has enabled us to share liberally in the prosperity of the country. Those thanks have been extended to you "over the counter and face to face." ¶ We take this method of thanking you publicly through The Daily Republican for your loyal support of home industries, and beg to assure you again that the home business men will always give you the best that is in him in service and the best in quality for your money. ¶ We extend to you the greetings of the season, with the earnest wish that the coming year may be one of unexampled prosperity and happiness for you.

## PLEADS GUILTY; ESCAPES A TERM

George W. Clingman of Near Manilla, Who Killed George Perry, Given Suspended Sentence

### APPEARS IN COURT TODAY

Prosecuting Witness, Brother of Dead Man, Recommends That This Course be Taken

George W. Clingman of near Manilla entered a plea of guilty to involuntary manslaughter, before Judge Sparks this morning in circuit court and received a sentence of from two to twenty-one years, which was suspended during good behavior.

The action of Clingman has been contemplated and the court received the plea upon the recommendation of the prosecuting witness, Clingman shot into a crowd of men returning from a fishing expedition and one of the bullets struck George Perry. Perry lived less than one hour.

Clingman and Perry had been long friends, but there was considerable feeling in the Perry family on account of the untimely death of George. This feeling was somewhat and for a time they hoped that Clingman be tried on charge of murder for which he was indicted. A brother of George Perry was the prosecuting witness when he recommended that the plea of guilty to manslaughter charge the prosecution of the judgment was completed.

Sentence of 2 to 21 years is state prison as Clingman is court his age as 31 years. He resides on the Mull farm, at distance from Manilla, and lived there only a few days at the tragedy. Young Perry in company with five or six other men went through the Mull farm to get the river. They returned from fishing shortly after midnight in crossing the barn yard Clingman and his wife were awakened. According to the story told by coroner at the time, Clingman saw the men to be robbers and shot from his bedroom window without taking aim and not intending to kill anyone.

The shooting has always been regarded as more or less of an accident, although it is admitted that Clingman was a little too ready with the gun.

## DE LAKIN BEGINS TERM IN JAIL TODAY

Sentenced to Serve Thirty Days and Pay Fine of \$50 by Judge Sparks for "Bootlegging"

### AND COSTS TO BE PAID

Judge Sparks pronounced judgment on Joseph Lakin this morning, fining him \$50 and costs and sending him to jail for thirty days. Lakin pleaded guilty to a "bootlegging" case about two months ago and his sentence was withheld pending the completion of several plumbing contracts held by Lakin, at the request of those for whom he was doing the work.

Lakin was indicted jointly last week with Charles Perkins for carrying a "blind tiger." It is understood that the "tiger" was located in a camp they maintained in the country. Perkins pleaded guilty and received a suspended sentence on account of ill health. Lakin, however, was fined and costs, leaving him thirty days to serve in jail.

## WEEK OF PRAYER BEGINS

First Service Tonight at 7:30, at United Presbyterian Church

The annual week of prayer services, to be observed by Protestant churches with union meetings, will begin tonight with the service at the United Presbyterian church, which will be addressed by the Rev. C. M. Yocum, of the Main Street Christian church. The meeting tomorrow night will be held at St. Paul's M. E. church and the Rev. S. G. Huntington of the First Baptist church will deliver the sermon. The services will begin each night at 7:30 o'clock and preceding them will be a half hour prayer service.

## NEW YEAR USHERED IN ABOUT SAME WAY

Fact That it Came in Sunday Night Made no Difference in the Celebrations

### MANY WATCH PARTIES HELD

The new year was ushered in here in about the usual manner as in other years. The fact that New Year's eve fell on Sunday made no difference and the celebration was confined to watch parties, the ringing of the church bells and the fire bell joke was worked over time. The first alarm was sounded promptly at twelve o'clock and came from box No. 42, corner of Fifth and Harrison streets. In a few minutes another alarm came in from box No. 26, corner of Fourth and Perkins street. The fire department answered the first call but did not go to the second. The clock in the court house tower struck seventeen instead of twelve at midnight.

There were numerous watch parties, but no public demonstration. The watch party scheduled for the First Presbyterian church was called off on account of sickness of those who were to participate.

## ARRESTS DECREASE DURING YEAR 1916

Police Records Show 103 as Compared to 155 in 1915, Due to Many "Blind Tiger" Cases

### 44 ARE FOR INTOXICATION

Rushville's record for law and order during the past year was exceedingly good, showing an improvement over the previous year as far as the number of arrests in police court are concerned. During 1916 a total of 103 arrests were made by the police as compared with 155 in 1915.

Forty-four of the arrests in the year 1916 were for public intoxication, showing that police court had other business besides handling the "drunks." Other cases were for petit larceny, assault and battery and other minor offenses.

The large number of arrests in the year previous were increased by the cleaning out of a number of "blind tigers." In 1915 there were eight "tiger" cases before Mayor Behout and in almost every case a conviction was secured, resulting in sending a colony of Rushville men to the penal farm.

### TAKEN TO MADISON

Deputy Sheriff Sullivan took Russell Cavender of Milroy to the insane asylum at Madison this morning. Cavender was declared of unsound mind at an inquest last week.

Charles Sherman heard Son's band in Indianapolis yesterday.

## OPEN HOUSE BY NEW OFFICIALS

Auditor, Treasurer and Commissioners Receive Congratulations at Opening of Their Terms

### BOARD ORGANIZES TODAY

Follows Precedent by Electing P. A. Newhouse, Oldest Member in Point of Service President

The result of the November election had its culmination today when the newly elected republican officials took office. Open house was held in the auditor's office, where cigars and apples were passed out to all visitors. The new officials all assembled there where they were greeted by their friends.

The change in the county offices puts the republicans practically in complete control of the county, the one remaining democrat in office being Sheriff Cavitt. The sheriff's term of office does not expire until one year today and on this date he will be succeeded by Ezekiel Jones.

William H. McMillin, the new auditor, Raymond Kelso and Mrs. Fanny Study, his deputies, were on duty this morning. Not much work was accomplished as the new officials were too busy receiving greetings and congratulations from their friends.

John O. Williams, whose second term as county treasurer, started today, and the new commissioners were also in the auditor's office, which was turned into a large reception room. The new commissioner is John E. Harrison of the southern district. P. A. Newhouse of the middle district will not begin his second term until next January. John T. Bowles is the hold-over commissioner. The board is now composed of three republicans.

This was the regular meeting day of the commissioners. They met and organized by electing Mr. Newhouse president of the board. The election of Mr. Newhouse is in keeping with an old precedent. It has always been customary to elect the member oldest in point of service and this fell to Mr. Newhouse. William Moore, the retiring democratic member, served as president of the board the past year.

Albert C. Stevens, prosecuting attorney, began his second term of two years today. Coroner Green does not enter upon his second term until a year from today. Representative William R. Jinnett will take up his duty in the legislature Wednesday, beginning his second term.

## MYRTLE HOOD IS RELEASED

Nine Jurors Ask Their Costs Not be Assessed—Sum Due Decreased

Mrs. Myrtle Hood was released from jail last Saturday after the costs in her case had been paid. The costs were reduced \$45.90 by nine of the jurors asking that Mayor Behout not tax their fees. She was fined \$10 and costs on a statutory charge. The fine and costs amounted to \$81.20. She would have served 80 days had the entire amount been charged against her. Nine of the twelve jurors signed the statements asking the court to remit their costs, thus knocking off the sum of \$45.90. The fine and costs then amounted to \$45.10, which was paid.

### JAIL WAS EMPTY TODAY

The county jail was empty for a day for the first time in over a year. Milton Wainscott was released this morning, clearing the jail of prisoners. There was no one there for several hours and then Joe Lakin began serving his term.

## FIRE LOSSES IN YEAR 1916 SMALL

Amounts to Only \$6,353.50, According to Annual Report Made by Fire Chief Easley

### LOSS ALONE TOTALS \$5,000

Twenty-Four Fires During the Year and Fourteen False Alarms—Great Reduction Shown

Rushville was very fortunate in the year 1916 in escaping without a heavy fire loss. The loss for the past year was below normal and was probably lower than in any previous year. The total loss from fire during the year was \$6,353.50, according to a report prepared by Fire Chief Easley.

This loss is the more remarkable when it is taken into consideration that one fire alone amounted to \$5,000. This was the fire of the National Gate company occurring last March. This was the only serious blaze of the entire year and accounted for most all of the total loss.

There were twenty-four fires during the year. This number includes all of the calls where there was a sign of a blaze, but does not include the fourteen false alarms answered by the department. The losses amounted from \$5 to \$5,000. There were two \$100 blazes but for the most part the losses were lower than this.

The minimum fire loss speaks well for the fire department, which was reorganized during the past year. Under the new system there are four men at the fire station, a fire chief and an engine man. The company has three head of horses and one fire engine that is in good condition in addition to the other equipment.

A total of 7,850 feet of hose was laid in reaching all of the blazes during the year. A hundred and fifty feet was the smallest number laid and the largest was 1,200. This latter amount was used in fighting the gate company fire. Chemicals were used successfully in three cases.

## RECORDER'S OFFICE JAIL FOR G. W. YOUNG

Sheriff Cavitt Lets Attorney in With His Key, Relocks Door and Forgets All About It

### YOUNG PRISONER FOR HOUR

George W. Young thought for a time this morning that Sheriff Cavitt was getting even with him for something. The recorder's office was closed for New Year's day and Mr. Young desired to get some papers out of the office. Sheriff Cavitt played the good fellow and let Mr. Young in the office, locking the door after him.

Mr. Young completed his work and then tried to get out. The door was locked and he decided to wait a few minutes. The minutes passed until an hour had been reached. Then Mr. Young decided that Cavitt must have mistaken the recorder's office for the jail and locked him up for keeps. As a last resort in an effort to get out, the telephone was brought into play and the sheriff was found.

A boy was born Saturday evening to the wife of Omer Collier in Cottage avenue.

Hubert Huddleson of Chicago is spending several days here with friends.

Law Serton is recovering from an attack of the grippe.

## CRASHES INTO LIGHT POST

Auto Driven by Gifford Cook is Seriously Damaged

The automobile owned by Robert Cook of near Falmouth was seriously damaged this morning when it crashed into one of the pedestal street light posts in front of the Grand Hotel. The machine, driven by Gifford Cook, a son of Mr. Cook, was making the turn into First street from the north and before it could be stopped crashed into the heavy iron post. The radiator was damaged and two of the glass globes on the post were broken.

## ISREAL HUMES DIES NEAR NEW SALEM

Noble Township Farmer, Who Expires of Complication of Diseases, Widely Known Man

### FUNERAL WILL BE TOMORROW

Israel Humes, 82 years old, died this morning at his home near New Salem, following a long illness from a complication of diseases and senility. Mr. Humes was a widely known man. He had resided all his life in Noble township with the exception of one year spent in Illinois. He had been in a critical condition for some time and his death was expected.

He is survived by his widow and two children, Mrs. M. O. Sefton of Noble township and Ira Humes of California. He is also survived by two brothers, Thomas J. Humes of near here and John C. Humes of Noble township.

The funeral services will be conducted Wednesday morning at ten o'clock in the late residence by the Rev. G. Abbott and burial will take place in East Hill cemetery.

## SENT TO "FARM" FOR THEFT OF POOL BALL

Milton Wainscott, However, Said to Have Promised to Leave if Sentence Was Suspended.

### IN MANY ESCAPADES LATELY

The theft of a pool ball valued at \$1.65 appears to have been "the straw that broke the camel's back" in the case of Milton Wainscott. Wainscott this morning entered a plea of guilty to the charge and was fined \$5 and costs and sentenced to the state penal farm for a period of one year. He was also fined \$1 and costs on a charge of public intoxication.

Wainscott has been in numerous escapades during the past year and the officials believed it would be a good thing to get rid of him. With the understanding that he would leave the city, Judge Sparks suspended both sentences pending good behavior. It is understood that Wainscott will leave Rushville within fifteen days. He was indicted by the grand jury last week on both of these charges. It was alleged that the pool ball was taken from the McAllister pool room.

## FUTURE LIES WITH GERMANY

Peace Movement Depends Wholly on Central Powers, Washington Officialdom Believes.

### MUST BE MORE EXPLICIT

"Broad Hint" to Neutral Countries by United States That Now is Opportune Time.

By ROBERT J. BENDER.  
(U. P. Staff Correspondent.)

Washington, Jan. 1.—The life or death of the present peace movement rests wholly in the hands of Germany.

This was known positively to be the belief today of Washington officialdom. Furthermore, while administration officials believe the Entente powers have left a loop-hole for Germany to prove the sincerity of her original proposals, they believe peace negotiations are further off today than they appeared to be at the start of the present movement.

This government feels that Germany must more frankly declare herself in regard to her plans and specifications if she is to keep alive any peace negotiations sentiment.

That Germany may take this gigantic step in her next move, insisting however, that her terms be held in confidence—is deemed possible by many officials.

A hint to all neutral countries that "the time is opportune to act" toward bringing about peace was conveyed to neutral capitals by U. S. diplomatic representatives abroad, it was announced today.

Coincidentally with this authoritative information came the unexplained information that this "broad hint" has been dropped.

The state department let it be known today that these instructions carried the impression that if any other neutral desired to make a move for peace, the best time appeared to be at hand.

## ATTENTION ON THE REPLY TO AMERICA

Since England Approves Answer to German Peace Note, it is Wondered What She Will Say to U. S.

### EXPECTED TO BE SUPPLEMENT

By ED. L. KEENE.  
(U. P. Staff Correspondent.)

London, Jan. 1.—With every word of the allied reply to Germany being approved by press and public, attention today centered on just how much further the Entente would go in specifying its stand in the reply to President Wilson's peace note.

The general belief today was that the allies having outlined in a general way in the German note the position they must adopt with regard to German peace proposals, would make the reply to America a sort of supplement which would go more exhaustively into the aims and purposes of the allies in their determination to continue the war. In some quarters it was held the reply note to Germany was a full and sufficient answer to America.

There were only a few notes of criticism today in the general chorus of approval of the allied answer to Germany.

### AUTO TURNS TURTLE TWICE

A roadster driven by Watson Fossett of Cambridge City turned over last night about 8:30 o'clock three miles west of the city, when it skidded in a rut in the road and turned turtle twice. The face of the driver was badly skinned up, but otherwise he suffered no injuries. He was accompanied by Mr. Davis, also of Cambridge City.

**PINK RIBBONED PUPS TO GO**

Statistical Persons Have Figured it Out That Each Dog Costs 12 Cents a Day.

(By United Press.)  
London, Dec. 10. (By Mail)—The dog is going to have his day with the ax-man just as soon as the anti-dog element wins its point.

This doesn't apply to the fox-terrier, which has a sense of humor or other small, sporting dogs or to the larger breeds which have their uses on the farm. But the pink-ribboned, brilliantined, carefully-combed and valeted animal that goes out at the end of a nine-dollar leash and dines with a butler's attention is about to get his. He is a drain on the national food supply and about as useful as the North Pole.

London dog-owners picked a bad time to hold their pet-dog show. Thousands of fat, fluffy Mumsey's Duckwuckums were carried in limousines to the exhibition benches while details were coming to light of the privation of slum children.

Statistical persons with pad and fountain-pen figured that each dog eats a minimum of 12 cents worth of food a day—two pups consuming enough to keep a war-orphan in good health. That comparison with the children and the spectre of a pinching food scarcity put the useless dog at a disadvantage for his life.

**FERTILITY OF SOIL NECESSARY**

Assistant Secretary of Agriculture Says Farmers Should Pay More Attention.

**IS FUNDAMENTAL BASIS**

Use of Legume Crops Has Long Been Advocated and Found Very Successful.

BY CARL VROOMAN.  
Assistant Secretary of Agriculture. (Written for United Press.)

Washington, Jan. 1.—A popular magazine some months ago sent a letter to all our Senators and Congressmen asking them what, in their opinion, would help most to keep the boys on the farm. A certain Senator, noted for terseness of speech and horse sense, wrote, at the bottom of the page an answer of five words, which I commend to all American citizens as being adapted to solve more agricultural problems than this one. The Senator's reply was: "Make farming profitable, by—!"

The prosperity of the farmer is to the business world what soil fertility is to the agricultural world, the fundamental basis of all permanent success. Many farmers in the past have made the mistake of thinking that they could get rich by skinning the soil, and many business men likewise have made the mistake of thinking that they could get rich by skinning the farmer. The only way that the farmer can make a permanent success of farming is to keep up the fertility of the soil, and the only way the business world can be permanently successful is to insure the continued prosperity of the farmer.

The use of legume crops has been advocated ever since the days of the Roman Empire and probably long before that, because they not only were paying crops, but had the added advantage of gathering from the air and depositing in the soil more nitrogen than they expected. The legume should be the model for every intelligent business man in his dealings with the farmer.

When a banker loans a farmer money, he should loan it to him at a rate of interest and for the kind of investment that will enable the farmer not only to pay back his loan, but to gain for himself a margin of profit. The railway manager who makes rates for the farmer for shipping fertilizer and other merchandise to the farmer, and for shipping the farmer's produce to market, should make a rate that will leave the farmer a margin of profit. The middlemen who handle the farmer's produce should endeavor to get him such prices and should charge him only such commissions as will leave the farmer a margin of profit. In the long run, it is only thus that the banks, the railroads and the commission men can insure their own profits.

If the leaders of the business world will lay this lesson to heart; if on New Year's day throughout this country they will take the legume as their model, and the words "Leave the farmer a margin of profit" as their motto, it will do more to increase production and reduce the high cost of living, it will do more to keep the boy and the girl on the farm, it will do more to create an invincible national efficiency and to push forward the work of national preparedness, than any other single step that can be taken.

**They Who Smiled at Dime Novel.**

This morning as I sat in the subway watching the people about me, I chanced to notice a little messenger boy not more than fourteen years old who was deeply absorbed in a paper covered book entitled "The Boy Detective; or The Haunted House." All over the train people were smiling in a superior way.

Changing cars at the next station I again looked about with the hope of finding another interesting fellow passenger. Directly in front of me sat a young girl who was also passing her time reading. Her literature was not "The Boy Detective," but I am afraid it was just as bad.

One of the current magazines of the day containing stories not written with any thought of uplift was receiving her undivided attention. In fact she held her finger in the place while she changed cars, in order to lose no time.

It was sad to learn that the magazine which she was reading has an enormous circulation—particularly among the younger girls of the country. It was a kind of magazine

that does the girls no earthly good and probably causes no end of harm.

Perhaps you smile and wonder how I come to know about the stories in such magazines. Before I censured publications like that I made it my business to know about them, and therefore suffered through a number of articles, not with a desire to criticize but with a desire to find something which might excuse the reading. I failed in my quest.

Literature is one of the main sculptors of the mind. If the literature we read is not wholesome, our minds will certainly suffer. All magazines, thank Heaven, are not like two or three of these publications; and most current periodicals contain fine, clean, interesting stories—stories that entertain without falling short of the mark of good literature.

And now let me show you the irony of my observation. The girl who sat reading the rather inferior magazine was one of the passengers who smiled at my little messenger friend in the subway.

Luxurious Quarters for Milwaukee Prisoners Will be Ready Monday—Twelve Buildings

TO OPERATE CHAIR FACTORY

(By United Press.)

Granville, Wis., Jan. 1.—Milwaukee county criminals Monday will occupy new quarters in the luxurious establishment built here at a cost of \$700,000, and said by officials to be one of the largest, finest, most comfortable county workhouse in the country.

The buildings of which there are twelve, have been under course of construction for the last two years. They have a capacity for 650 prisoners. Each inmate has a separate cell, while those who sleep in the dormitories will have plenty of room and a number of cubic feet of air to breathe. The inmates will have luxuries denied many persons even in moderate circumstances. Each cell will contain a toilet and wash basin while shower baths will be installed along the cell corridors.

So as not to fatigue prisoners, the chair factory has been located in such a manner that they will not have to walk a great distance. The factory will turn out thousands of chairs of all kinds each year. It was built at a cost of \$100,000.

**To The Republican Precinct Committee of the City of Rushville, Indiana**  
In accordance with the provisions of the primary election law of Indiana and pursuant to the interpretation thereof by the commission appointed by the Governor, the committeemen for the ten voting precincts situated wholly or partly in Rushville, Rush County, Indiana, are hereby requested to meet at the court house assembly room in said city at 7:30 o'clock p. m., on Tuesday the second day of January, 1917, for the purpose of electing a chairman, secretary, treasurer and such other officers and committees of the Republican City Central Committee of said city as they may deem advisable.

**Peering Ahead a Year**  
What will the year 1917 mean to Rushville, to this community and the people who call it home?  
What will be your personal attitude toward making it a better Rushville, a more prosperous community and a more open-hearted people?  
The efforts of the individual citizen may accomplish something, but the co-operation of a collective people will produce notable results.  
Collective co-operation is only possible where confidence and good will exist, and where there is a determination to utilize this combination to the ultimate good of all.  
The man who holds a grudge against his neighbor can not successfully pull in harness with that neighbor so long as that grudge exists. Lose the grudge.  
The man who disparages and undermines the reputation of another can not expect the community in general to think well of the assassin of character. Speak gently and use the soft pedal.  
The man who says "go ahead" can not expect to keep pace with the hustler who says "come on." Step lively and get there.  
And one man who says "I Will" is worth a hundred of those who say "I Can't."  
This is the time of year when the hopper of time is filled with new resolutions. But it is more profitable to act than to resolve.  
Let us make this a year of action, of deeds, and of results.  
Let us make this more than a collection of individuals. Let us make it a community of people with one aim, one ambition, and one great purpose in life, and let us make that purpose the good of man and

womenkind in general and of this community in particular.  
If we work collectively, earnestly and energetically we will achieve success, but if we labor individually we will accomplish but little.  
The road of life is long, and stormy, and many barriers bar our way. But many hands make light work of the heaviest burdens, and collectively might may roll the heaviest barriers away.  
We may each pursue our own chosen vocations, and yet all labor in the common cause of a better and more prosperous town and countryside.  
Two horses pulling in one direction will get the load there. But when one pulls and the other balks the load stands still.  
Will 1917 find us a community of loyal pullers, or a divided aggregation of pullers and balkers who accomplish nothing but to stand still?  
Nineteen seventeen will tell the story, and you will put the words in the mouth of the teller.  
What are those words going to be?  
Will they be loyalty, cohesion, aggressiveness, success? Or will they be disloyalty, suspicion, disintegration, disaster  
A year of promise is ahead, but promise never makes good unaided and alone.  
We must each grasp the opportunities with which nature has provided us, and turn those opportunities to individual and collective weal.  
To do otherwise will be to stand still while others march on to victory and to success.  
Shall we stand, or shall we march?  
You tell.  
**Diplomacy Not a Success**  
Carranza refuses to sign the protocol which the Atlantic City conference prepared.  
The Entente Powers of Europe have politely but very firmly indicated that they do not desire the good offices of this government in securing peace.  
The people of Santo Domingo have sent to the governments of South and Central America a protest against the action of this administration in seizing control of their island.  
It cannot, therefore, be held that American diplomacy as practiced in this year of Our Lord is a glittering success.  
But it has been demonstrated that the State Department can make utterances which will destroy values in the American stock market, which will wreck the financial prospects of thousands of small investors, and which, properly "leaked," will enable a few persons to reap colossal gains.  
Would not it be wise, therefore, for the State Department to confine its operations to the stock market, where it has shown itself to be really potential, rather than to continue to mix and muddle in matters where it cannot accomplish anything, even for the "humanity" which it seems to be our manifest destiny to serve, but which, ungratefully, wishes to be let alone?

**OBJECTING TO ONE PARAGRAPH**

**Wayne County Officials do Not Like a Provision of Proposed State Highway Bill**

**TECHNICAL EXAM. FEARED**

**Do Not Want Them Such That Practical Road Men Could Not Compete for Positions**

Richmond, Ind., Jan. 1.—What county officials and others interested in the state highway commission legislation believe is a "sleeper" has been discovered in the draft of the bill that is to be presented by Luke Duffy to the state legislature. It was found and discussed in its dangerous possibilities by W. O. Jones, county superintendent of highways and L. S. Bowman, county auditor, and yesterday, the attention of other persons over the state was called to it by letters sent out from Richmond.  
The paragraph of the proposed bill, to which objection is taken reads:  
"That the state engineer have authority to require county and township road official to give him such information of their local road conditions as he may see fit to request."

This paragraph was not discussed in the meeting last week in Indianapolis of men who are working in the highway commission movement. Mr. Jones points out that only once was any illusion made to this paragraph and that the discussion of the bill followed each paragraph of the measure until this one was reached when the entire bill was placed on vote for approval.

The one reference to the paragraph to which exception is taken was made when Mr. Duffy said that no examinations would be required of present county highway superintendents this year but that an examination would be required next year. It was at once directly charged that these examinations would be used as a means for Purdue university, through a technical examination, replacing practical road men with Purdue graduates in road engineering.

Mr. Jones and others in this county believe that this particular paragraph of the law would be invoked to establish the system of examinations on technical lines that would make possible the placing of "road engineers" in the county superintendencies. He says that he does not object to examinations or would not remove from this bill, this paragraph, but that it should definitely specify to what extent information can be demanded, how and what examinations must be taken and not make it so technical that practical road men could not compete with "engineers." He believes that through these examinations and demands for information "on local conditions" a state engineer could foist upon the taxpayers a heavy expense that would not benefit the roads. In a conference in Indianapolis next week, the Wayne county men will demand a change in that paragraph to cover the points they make.

There were a lot of 1917's last night. The man who was on duty at the telephone office last night says that just as soon as the clock struck twelve, the buzz of phones ringing began and the office resembled a bee hive in first class working order for about five minutes. The noise represented the activities of scores of persons who sat up until midnight just to call up their friends and say, "Hello, is this 1917?"

The sessions begin at noon on Tuesday and close at noon on Thursday. Over a hundred Indiana road officials were registered at the Road School last year and more are expected this year.

All of the time of the school will be devoted to a consideration of Indiana road problems. Many of the road officials of Indiana will present their personal experiences. Much time will be given to the discussion of these talks.

The United States Office of Public Roads and Rural Engineering will have a representative present to give the latest conclusions of that department.

The meeting of the Indiana Engineering Society at Purdue on January 18 to 20 makes it possible for road officials to take in both meetings in the same week. As in previous years the Road School will be held under the auspices of the School of Civil Engineering.

Programs and further detailed information may be obtained from the Highway Engineering Department of Purdue University.

**LONDON ARTIST STAGES COME BACK**

**After Thirty-four Years Retirement Richard Belt Models Bust of Kitchener.**

**OFFERED \$50,000 FOR WORK**

(By United Press.)

London, Dec. 10.—(By Mail)—Richard Belt, artist, came back after 34 years of retirement due to illness and modelled a bust of Lord Kitchener, so lifelike that he was offered \$50,000 for it. Art is priceless to Belt, however and his masterpiece has been claimed by the Government. A cannon from the British artillery has been set aside to make the casting.

Belt's last previous work was a bust of Sir Richard Burbridge which the academy refused to accept. Shortly after the refusal he lost the power of one arm and gave up the work.

The artist was one of Kitchener's worshippers and studied the great soldier's mood. When England was stunned by Kitchener's loss Belt and his wife improvised a secret studio in their home and the sculptor began work anew to express in clay what was in his finger-tips.

"I had never spoken to Lord Kitchener," said Belt today, "but I had observed him many times, noting features keenly and to the minutest detail of every mood. I could not rest until I had put the knowledge to expression. The bust is the result."

Critical art committees judged the model to be a faithful and lifelike representation of Kitchener contemplative, combining his severe facial lines with some hint of his genial nature.

## SIXTH IN LIST OF WINNING PACERS

Diameter, Trained by Frank Lindsey, Takes Purses Amounting \$6,852 in One Season

### PURCHASED AT CHICAGO SALE

Diameter, the sensational bay gelding, trained by Frank Lindsey of Falmouth, was one Rush county horse that "cleaned up" last year on the grand circuit. The total winnings of Diameter were \$6,852 in purses and there is no telling how

much the men interested won on the horse. Diameter was recently sold at the Chicago sale for \$1,525. Diameter was a long time coming into anything like sensational form. For several years Diameter was raced over the half-mile tracks of the Indiana fair circuits with only ordinary success. The gelding was a big awkward looking horse and nothing great was ever expected of him. Last season Lindsey took him down the grand circuit, the result being that Diameter stands sixth in the list of winning pacers for the year 1916. Diameter is eight years old, making the performances of the past year the more remarkable. The gelding took a mark of 2:01 on the Columbus, Ohio, track.

## RETURNS TO OLD COMPANY

Donald McIntosh Becomes Head of Agents for State Mutual

Donald R. McIntosh, formerly of Connorsville and well known here, has been appointed superintendent of agents for the State Mutual Life Assurance company of Worcester, Mass., with headquarters in Indianapolis. Mr. McIntosh formerly represented this company as district agent at Connorsville, but since the workmen's compensation law became effective, he had been field representative of the Aetna Accident company. His success in this last position brought a promotion, but

he resigned to return to the old company and devote his entire time to life insurance. In his new capacity he will act under the direct supervision of Edson F. Folsom, the state manager, who is well known here where he once lived. He is best known by his advertising slogan, "Talk it over with Folsom."

# A Triumphant Year for Newspaper Advertising

An increase of approximately twenty-five million dollars in newspaper advertising from the general field has been recorded in the year 1916 just closed. ¶ No other medium, employed to spread the printed word, shows a similar increase either in dollars and cents or in comparison by percentages. None other was paid so well, because none other worked so well.

Never before did newspaper advertising render such a variety of services to so many people, or open so many hitherto unexplored avenues of usefulness.

It is the rule of business that the thing that pays grows; and national advertising increased in the newspapers because it showed large profits to the men who properly employed it. It had paid the foresighted ones who used it in large volume in 1915—so they used more of it, and, as the blazed trail is easy to follow—more people used it.

There was, of course, a great underlying reason for this development of national advertising in the newspapers.

It has been tersely given by a great manufacturer who is at the present time advertising in more than half of all the daily newspapers published. He says:

"Newspaper advertising hits the spot we want to reach.

"Newspaper advertising carries our story to the consumer with the daily news.

"Newspaper advertising does effective work with the local dealer."

Or as a successful advertising agent says it, "Nothing succeeds like newspaper advertising."

## Leadership

Many important interests had things to say to the public during the past year. They found the medium of newspaper advertising the effective place to say them. Among the greater developments along these lines of public service were:—

The further enlargement of the idea of advertising for the good-will of the people on the part of the railroads, telephone companies and other public service corporations;

The growth in space of institutional advertising on the part of manufacturers who are producing a variety of staple products;

A nation-wide campaign of advertising by the railroads which crystallized public sentiment at the time a great strike was threatened;

A nation-wide advertising campaign on the part of the Bethlehem Steel Company.

Employment of newspaper advertising for the first time by the Democratic and Republican National Committees.

This latter development was perhaps the most wholesome achievement of the recent political campaign.

## First In Public Service In War and In Peace

Perhaps the most notable triumphs of Newspaper advertising were in the field of public service.

Governments marshalled newspaper advertising batteries to raise troops, to pay bills, to encourage thrift, to stimulate industry, to mobilize every national force. It has been said that during the past year the lives of the people of the British Empire have been directed by an advertising manager.

Progressive Canada, nearer home, has done wonderful things along these lines. By advertising to increase productiveness, she has literally made two spears of wheat grow where one grew before.

While the Government of the United States has not yet awakened to the force of the great power she has at her door, leaders of her great political parties have had a last hour conversion.

During the recent political campaign, for the first time, the battle was fought in the open, largely through the medium of newspaper advertising.

It is a significant fact that the Republican Party, which was the greatest user of newspaper space, carried every state but one where it sent its message to the people.

Democratic leaders on the other hand did much to combat this influence with some strong advertising for their candidate.

Corporations have found in paid advertising a sure avenue to good will for a just cause.

Capital and Labor have courted public opinion through the newspapers.

The old days of lobbying and secret wire-pulling have given way to the greater force—newspaper advertising.

Some of the things that were done were badly done, but progress was made and this fact clearly established:—

## Service

Canada's Government has found newspaper advertising an efficient servant. It has employed it since 1906, and, since the war, has greatly multiplied its field of usefulness. Here are some things the Canadian Government has done:

† † †

Marketed her apple crop at a profit, saving her growers the loss of \$2,000,000 by an advertising expenditure of \$14,000;

† † †

Increased the production of farm products and the activity of manufacturers by an expenditure of \$15,000, adding \$300,000,000 to her gross production;

† † †

Induced the cultivation of town plots by an expenditure of \$1,000;

† † †

Floated immense war loans; and taught thrift and patriotism.

† † †

And Canada has only begun to fight—and to advertise.

"The newspaper of the immediate future will be the great link for every man and set of men who wish to connect with the public."

These facts were gathered by the Bureau of Advertising, American Newspaper Publishers Association. The Daily Republican Being a Member.

The guests were Mrs. Henry Schmall and children, Mrs. Oscar Eden, Mrs. Bertha Wainseott, and Herschell Schmall, Mr. and Mrs. Lester Casey and two children, Mrs. Sallie Gray and children, Fred, Will and Miss Emma Casey, the Miss Mattie Bates and Irene Adams.

The merry group of young people that gathered at the home of Miss Elsie Frazee last evening had a gay time together while watching the old year out. A midnight lunch was served in buffet style to the guests who included the Misses Phyllis Dean, Marian Titworth, Gladys Titworth, Sylvia Mullins, Helen Osborne, Harriet Smith and Marie Clark and Clifford Mauzy, Ralph Martin, Tom Saunders, Halbert Brown, Paul Thorpe, Clifford Stevens and Paul Newhouse.

Mrs. Anna Hoeltke Has Bill That Will be Presented Prohibiting Same and Shipment.

### PROVIDES STIFF PUNISHMENT

She Declares the Corset Has Killed More People Than Whiskey and Tobacco.

### PROPOSED CORSET LAW.

"Be it enacted by the legislature of Indiana that 'Corsets or any garment intended or adapted to the purpose of constricting the waists of girls or women, shall not be conveyed in the mails, or by express companies, directly or indirectly or by any other means transported into the state of Indiana; and every person who shall knowingly convey or transport or who shall knowingly receive any corset or garment designed to constrict the waists of women and girls into the state of Indiana, shall upon conviction, be fined not more than \$5,000 or imprisoned not more than five years, or otherwise punished at the discretion of the court.'

Indianapolis, Ind., Jan. 1.—Declaring the wearing of corsets to be the greatest of all evils, Mrs. Anna Hoeltke of this city has prepared the above bill to be introduced at the coming meeting of the legislature. Representative-elect William S. Woods will present the bill to the legislature, Mrs. Hoeltke stated to the United Press today.

"The corset has killed more women and children than whiskey, tobacco, war and famine," Mrs. Hoeltke stated today. "This, worse than barbarous custom of deforming the waists of girls and women is far more injurious than the savage custom of flattening the head or the Chinese custom of binding feet."

"Reports indicate that thousands of deformed babies are born every year as the result of mothers binding their waists with corsets. The government has passed laws prohibiting the sale of habit-forming drugs. What is the government going to do to prevent the coming generation from living in a whalebone prison before birth?"

The Missionary society of the First Baptist church will meet on Wednesday of this week in the parlors of the new church at 2:30 o'clock.

An interesting program will be carried out at the meeting of the C. W. B. M. on Wednesday afternoon in the basement of the Christian church. The meeting will be called at 2:15 o'clock.

A New Year's dinner was given yesterday by Mr. and Mrs. C. A. Mauzy at their home in North Harrison street when they entertained Mr. and Mrs. George Dehority and son of Elwood, Mr. and Mrs. Louis Mauzy and Mr. and Mrs. Hugh Mauzy and daughters, Judith and Janet.

## Greetings to You

TO OUR PATRONS AND FRIENDS WE BRING GREETINGS

May a benign Providence smile kindly upon you during the years to come, and may your fondest hopes be realized.

For the generous measure of good will and patronage you have accorded us, we wish to tender our heartfelt thanks and appreciation. Your good will is dear to us and you will ever find us striving more and more to merit the same.

That our future relations may be equally satisfactory to both, is the wish of

Your Sincere Friends,

The cabinet of the Epworth League of the St. Paul's M. E. church will have an important meeting at the home of Earl Marlatt on Thursday evening at 8 o'clock. Plans for the meetings for the coming year are to be discussed.

Mr. and Mrs. Guy Mulbarger entertained yesterday at their home in North Jackson street with a prettily appointed dinner for Mr. and Mrs. Ed Frazee, Mr. and Mrs. Howard Mahin and son, Jack, Mr. and Mrs. E. R. Casady and family.

The meeting of the Shakespeare Club which was announced for Tuesday evening will be held on Wednesday evening instead, at the home of the Misses Mary and Nora Sleeth when they will be assisted in entertaining by Mrs. Donald Smith.

Miss Dorothy Sparks celebrated her birthday yesterday by giving a watch party for several of her friends last evening who watched the coming of the new year in this social way.

Dainty refreshments were served to the guests including the Misses Esther Anderson, Margaret Ball, Mary Louise Bliss, Helen Frazee, Kathryn Guffin, Dorothy Mulno, Lois Reeve, Kathryn Wyatt, and William Sexton, Howard Stiers, Dwight VanOsdol, Forrest Jones, Harry Schmalzel, Alfred Norris, Harold Wolcott, Hubert Alexander and Lawrence Payne.

### TODAY'S FISH RECIPE.

If folks only understood more about it, the old prejudice against cold storage fish and other foods would soon disappear. At certain seasons more fish are caught than are consumed. The minute the fish are taken from the water, they are placed on ice. As soon as possible, the fish are put into a freezing cham-

ber and frozen solid. They cannot deteriorate after that.

Later the fish are taken out and put on ice. This thaws them out. Not one person in a hundred knows the difference between fish out of cold storage and those fresh out of water.

When fish, frozen solid are purchased, they should never be placed in water to thaw them out. They should be placed on ice and allowed to thaw out naturally. If you are in a hurry and must put it in water, the same water should be used to cook the fish. All varieties of fish are placed in cold storage and by judicious use of this seafood housewives should be able to keep expenses down.

## Renewed Testimony

No one in Rushville who suffers from backache, headaches, or distressing urinary ills, can afford to ignore this Rushville man's twice-told story. It is confirmed testimony that no Rushville resident can doubt.

Harrison Levi, 931 N. Sexton St. Rushville, says; "I used to have to get up six or seven times each night on account of the too frequent passages of the kidney secretions. Often the passages were scanty and accompanied by pain. I also had severe backaches. Nothing ever did me any good until I got Doan's Kidney Pills from Johnson's Drug Store. It didn't take them long to fix me up. The pain left and my kidneys became regular in action." (Statement given July 27, 1919.)

## A PERMANENT CURE

On Aug. 25, 1915 Mr. Levi said: "I am glad to confirm my former endorsement of Doan's Kidney Pills for they have given me a permanent cure."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Levi has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.—(Adv.)

## KILLS WIFE AND ENDS OWN LIFE

Valentine Kaufman, Prominent Wayne Co. Farmer, Found Dead in His Home Sunday

## SPOUSE'S BODY IN THE BARN

Leaves Note Directing Where to Find Wife's Corpse—Domestic Trouble is Hinted

Richmond, Ind., Jan. 1.—J. Valentine Kaufman, 50 years old, one of the wealthiest farmers of Wayne County, shot and killed his wife, 54 years old, and then ended his own life with a shot from the same revolver on their farm half a mile south of Pennville early Saturday evening. The bodies were found Sunday afternoon by Mrs. William Hudson, a neighbor, who went to the Kaufman home on an errand. Mrs. Hudson found Kaufman's body on the kitchen floor with a bullet wound in the head. A revolver lay nearby. On a table was a note which said, "Go look in the barn." Mrs. Hudson went to the barn and in a cow shed found the body of Mrs. Kaufman, covered with a tarpaulin. There was a gunshot wound on the side of the head. There was no indication of a struggle.

Coroner R. D. Morrow believes that Kaufman followed his wife into the barn that evening and killed her while she was doing the chores. The husband, according to the finding of the coroner, then returned to the house, paddled the note and turned the revolver on himself.

No definite motive for the crime was obtainable. The coroner said neighbors told him there had been domestic trouble, but these rumors were so vague they led to no explanation of the tragedy.

Kaufman, is in the East on a honeymoon trip. He was married to Miss Marjorie Mayhew of this city a few days before Christmas. The son operated the farm of 180 acres for the parents. The land was in the name of Mrs. Kaufman.

The Kaufmans had lived in the western part of Wayne county for many years and were rated as prosperous.

Prosecutor Strayer is investigating a report that Kaufman killed his wife because of difficulty arising over the son's management of the farm. Neighbors say that Kaufman was a poor man when he married his wife, who owned the farm. For a number of years the mother has sided with the son on questions pertaining to the farm management. This, the neighbors say, caused friction between Mr. and Mrs. Kaufman.

The son's marriage last week, it is believed, may have caused Kaufman to fear further trouble and complications, finally driving him to the decision to kill his wife and himself. Neighbors say Kaufman was a hard-working man. He was highly esteemed in the western part of the county. A number of letters addressed to relatives were found, but their contents were not disclosed.

## SHORT SESSION IS ON LAST LAP

Several Important Measures to be Considered by Congress in Closing Months.

### REVIEW OF ACCOMPLISHMENT

Railway Legislation Looms up as Largest Piece of Unfinished Business.

(By United Press.)  
Washington, Jan. 1.—The short session of the Sixty Fourth Congress is on the last lap of a whirlwind race. Following is a review of what has been accomplished and something of what remains to be done.

These, measured by public interest, are the most important legislative tasks accomplished by the Sixty Fourth Congress:

The Army and Navy bills carrying appropriations of gigantic sums, a long step towards preparedness.

Establishment of Federal Reserve banks to eliminate danger of financial panics.

Purchase of Danish West Indies at a cost of \$25,000,000, another stride towards preparedness.

Federal Farm Loan Act, of great interest to farmers and intended to aid them in securing necessary capital at a fair rate of interest.

Federal Good Roads Law, provides \$75,000,000 to be used in improving National highways.

Federal Trade Commission, "a go-between" in matters between the Public and corporations.

Workmen's Compensation; Ship Purchase Act, a movement toward a real merchant marine; Child labor law.

Railway legislation looms up as the biggest piece of unfinished business. Strenuous efforts are being made to rush the railway program through during the present short session of Congress.

The corrupt practices bill, providing for publicity of campaign funds, is another important bill up for a speedy consideration.

The Judgeship bill, which would relieve from service Judges reaching the age of 70 after ten years' service, and who by reason of physical disability are unable properly to discharge their duties, also is set for early hearing.

The fate of the immigration bill, with the literacy test attached, which was recently passed by the Senate, is hard to predict. President Wilson vetoed a similar bill. It is rumored an effort will be made to pass the bill over any possible vote.

Woman suffrage and national prohibition have been reported by the House committee but it is impossible to say when either bill will reach a vote.

Other important measures due for early consideration are: the water-power bill, having to do with the leasing of power-sites on inland waterways; the flood-prevention bill carrying appropriations of millions for flood prevention along the Mississippi and Sacramento rivers, and the Webb expert bill, which would permit combination of American exporters for participation in foreign trade in an effort to meet competition at the end of European hostilities.

The line-up of Republicans and Democrats in the Senate will be slightly altered in the 66th Congress, Democrats losing one and reducing their working majority to 13.

The line-up of the House is still in doubt. The result of the fight made in North Carolina by Britt, Republican and Weaver, Democrat, may decide the question of the majority in the lower branch of Congress.

### TODAY'S HOOSIER ODDITY

Terre Haute, Ind., Jan. 1.—John Davenport, colored, may have to pay \$500 and serve sixty days in jail in payment for one turkey. He was given this sentence for stealing a turkey, but has appealed the case.

Miss Prudence Pope still at her home in this city.

Charles Combs has been ill at his home at Greensburg for several
